
AlphaGenome v2: official double-OOD, primary seed 17
A. Same held-out patients and CpGs
island
shore
shelf
open_sea
v2 per-CpG MSE
v1 per-CpG MSE
B. Error and observed variability
RMSE (beta units)
Observed methylation SD
C. Error decomposition by CpG context
v1 total MSE
v2 squared mean bias
v2 centered error
MSE
island
shore
shelf
open_sea
D. Location and direction of errors
RMSE (beta units)
chr1 position (Mb, hg38)
Mean signed error (predicted - observed)
